## KENZO

EAU DE FLEUR DE SOIE

One of a trio of fragrances from Kenzo featuring flowers from Japanese trees, this combines a floral top with a fruity heart. Its star bloom is from the silk tree known in Japan as numunoki, also called the sleeping tree because its leaves close in the evening and reopen in the morning, giving the illusion that it has slumbered during the night. **\$55 (kenzousa.com)**

## NEUTROGENA

NOURISHING EYE QUAD

The eye region is among the most delicate areas of skin on the body, so it demands to be treated gently. That's why each base shade in these eye shadow palettes is formulated with moisturizing and soothing silk and soy extracts, plus antioxidants and sun protection. **\$9.99 (Mass retailers)**

## GIORGIO ARMANI

LASTING SILK UV FOUNDATION SPF 20

Much like how Armani's sartorial creations drape the body to highlight or conceal certain features, this contouring makeup smooths over the face for a flawless finish. Light-diffusing particles hide imperfections and provide a semimatte finish. **\$58 (Barneys, Bloomingdale's, Neiman Marcus, Saks, giorgioarmani.com)**
