

LUXURY'S BEAUTY BAR

MANE EVENT

For more than 50 years, Kenra has been formulating and producing hair care products using only the finest ingredients. Their Platinum line of shampoos and conditioners allows you to treat your hair with a cleansing and moisturizing system using a two-part color lock technology that provides both internal and external protection, maximizing the life of color treated hair. Also part of the Platinum collection is Kenra's new Platinum Silkening Gloss. This ultra-light formula gives hair a lustrous and silky shine that also tames frizz and smoothes dry ends. It's so luxurious that you can even use it on your skin and in your bath. Kenra products may be purchased at Ulta Stores or at www.kenra.com.
