BODY WAVE

Wrap a three-inch piece of blow-dried hair around a closed large-barrel curling iron, then curl the piece around a finger, pin and repeat. When your entire head is covered in pin curls, quickly blast with a blow-dryer; Let cool, then remove pins and run fingers through hair to break up the waves. Mist with a flexible-hold hair spray (like Alberto V05 Shape Up Hair Spray, \$3; at drugstores).

2

ON THE SIDE

Rub a dime-size drop of shine serum (like Kenra Platinum Silkening Gloss, \$15; kenra.com) through to ends, then flat-iron strands, starting as close to roots as possible. Part hair on the left, then comb strands into a low ponytail behind your left ear, securing with an elastic. Twist the pony into a coil, then wrap around the elastic and secure with pins.
