

beauty **PRETTY UPDOS**

*curly twist*

**HOW-TO:**

- **STEP 1** Create texture by applying your product all over dry hair and scrunching the ends.
- **STEP 2** Leaving out a little piece of hair in front, pull back the right side of your hair, rolling it as though you were making a French twist. Pin it securely as you go.
- **STEP 3** End the twist at the back of your head. Do the same on the other side. Let the rest of your hair fall loosely in back.

ANNALYNNE McCORD

*poofed ponytail*

**HOW-TO:**

- **STEP 1** Flip head over and apply your product on dry hair from roots to ends, then back-comb the crown of your hair to create the bouffant effect on top.
- **STEP 2** Flip your head back up, and smooth the flyaways on top with your fingers, being careful not to flatten the pouf.
- **STEP 3** Brush the front section to one side, and gently smooth the rest to the sides and back. Loosely gather into a low side ponytail, and secure with an elastic.
