

the bangs

HOT SUMMER DO: Push long bangs aside by pulling them upward and twisting to one side à la Liv Tyler. Secure them with a glam barrette or a hidden pin, or slick them back with a flexible gel. Keeping your bangs off your face saves them from getting greasy fast. **FLARE LOVES:** L'Oréal Professionnel Techni.Art Fix Move, \$18. **FALL SHAKEUP:** "Give your bangs a classic '40s vibe by curling them under," says Sam McKnight, global hair-care ambassador for P&G Beauty, who has worked on Kate Moss's seductively draped fringe. You'll need hairspray to give them hold, then use your fingers to tousle lightly for a soft finish. **FLARE LOVES:** Kenra Platinum Working Spray, \$19.

THE TRANSFORMERS

Rework your hot summer do with tips from pro stylist Sam McKnight By Carlene Higgins

the crop

HOT SUMMER DO: With a well-cut short crop (like the longer-in-the-front, shorter-at-the-sides cut McKnight gave Agyness Deyn), everything should fall nicely, simply by wearing it freshly washed, says McKnight. Use a foaming wax to lift and separate the ends into a charming mess. **FLARE LOVES:** Pantene Pro-V Sheer Volume Shampoo, \$6; Goldwell Styling Profiler Mousse Wax, \$21. **FALL SHAKEUP:** To achieve Rihanna's red-carpet polish, switch up your part or tuck your hair behind one ear. "If you make it perfectly straight and shiny, it will look expensive and sophisticated," says McKnight. Use a serum to smooth your ends, then hold hair in place with hairspray. **FLARE LOVES:** Ghd IV Styler styling iron, \$280; Paul Mitchell Smoothing Super Skinny Serum, \$26.
